LABOR ADVISORY NO. 02
Series of 2018

JULIUS
DOLE-PS 1FEB'18 9:36

The use of OMEGA fungicide in the postharvest treatment of bananas is hereby discouraged following complaints of its health effects to workers.

Stakeholders in the banana industry are hereby advised to coordinate with the Fertilizer and Pesticide Authority in choosing alternatives from among those classified as "green-labeled" (Category 4) fungicide.

SILVESTRE H. BELLO III
